778-870-3412

**Artist's Biography**

Jessica marries her storied 20-year career in the wellness industry, her 200-hour Registered [Meditation] Teacher Certification and her love of flowers into photography that soothes and relaxes. To capture bright backgrounds and sunshine, Jessica uses manual camera settings and slow shutter speeds, bucking what is traditionally taught in photography courses. Jessica's work is unedited in post-production. Featured in award-winning spas and private collections around the world, Jessica is humbled and proud that her art inspires others to take notice of the simple beauty of what is often overlooked in the busy-ness of daily life.

**Education**
